ABOUT :

Dx Rigraf is an exciting Modern geometric typeface with contemporary monospace touches. It's born from strong elementary shapes, with clean circles interwoven with modern cuts and sharp edges.

It has been designed as a variable font to give lots of options and access to unique type looks; however it also includes nine weights to give just as much access to creativity to those without access to variable supporting software. Its distinctive character and many variables make it a versatile, stylish workhorse, great for interfaces and design.

Dx Rigraf sans serif font family of 9 weights, 3 Style Width with matching italics– 54 styles all in 1 Variable font.
